

Job Description – Working Student

Do you have what it takes?

- Do you have a can-do attitude?
- Do you have drive to push a new business?
- Do you like to solve problems?
- Do you want to learn broadly about different areas?
- Do you want to be part of the early stage customer marketing campaign?

Company Overview:

AND Biotech is on a mission to advance health through the intelligent use of nucleic acids — from therapeutic applications to next-generation nutritional supplements. As we launch our consumer-facing dietary supplement brand NooQ, we're looking for a working student to support our business development and operations, with a focus on the dietary supplement and sports nutrition space.

Focus: Nutrition Innovation / Dietary Supplements

Location: Hybrid, Basel & HO

Your Role:

As a working student, you'll support our team in identifying new business opportunities, streamlining operations, and contributing to the development and market positioning of our science-based supplement line. You'll work closely with the founder team, gaining hands-on experience in a dynamic, impact-driven environment.

Key responsibilities:

- Researching trends and market dynamics in nutrition, sports supplements, and biotech-adjacent sectors
- Supporting B2B and B2C **business development** efforts (partner scouting, outreach prep, deck creation)
- Assisting in **operational workflows** (product tracking, supplier communication, process documentation)
- Helping manage project timelines across marketing, logistics, and product development
- Contributing ideas to **product innovation**, based on scientific literature and market insights

Qualifications:

- **Educational Background:** You are enrolled in a Bachelor's or Master's program in Nutrition Science, Sports Science, Life Sciences, or related field.
- You have a genuine interest in **science-driven nutrition and wellness**
- You are **curious, organized, hands-on**, and enjoy working across topics
- You're comfortable with tools like Microsoft Office, Social Media, Odoo (a plus), and/or similar
- You have **strong communication skills** in English & German (French a plus)

What We Offer:

- A **flexible part-time role (40–60%)** with real responsibility and steep learning curve
- Deep insight into an **early-stage biotech company**
- The chance to shape meaningful health products from the inside
- A collaborative and health-focused company culture that respects balance and curiosity
- Collaborative and dynamic work environment with a passionate team.
- Flexibility to influence and shape the company's growth and success.

How to Apply:

If you're excited to work at the intersection of science, health, and entrepreneurship, and want to grow your skills while helping bring cutting-edge nutrition to the world — we'd love to hear from you. We are not looking for perfection, but the right mix of attitude and background.

Please submit your resume, a cover letter outlining your relevant experience, and any supporting documents to Marc-Olivier Zwicky, Co-Founder and CEO of AND Biotech AG (marc-olivier.zwicky@andbiotech.com).
